

Submission Notes

General Description

This practical assessment will have multiple scenarios (Lina as a new hire) that gather information on 13 different parts. Each part will have its own configuration, use case and settings, which will be highlighted throughout this document, either screenshots or update set. This document fully depends on the main assessment file named "**ITI Assessment Final**" which was generously proposed by Capgemini.

The Main Scenario: "Lina Hassan joins the Finance department on 1 June 2026.", This single scenario threads through all 13 assessment topics -from navigating ServiceNow on day one to full ITSM lifecycle management.

Part 1: Orientation & Navigation

Use-case: You have just been given access to a fresh ServiceNow PDI. Before configuring anything for Lina's onboarding, confirm you can navigate the platform confidently.

~This Part will contain Verification screenshots

Step 1: All 4 modules opened via App Navigator

Incident Path: Search in app navigator (Service Desk -> Incidents)

Part 5 Update set

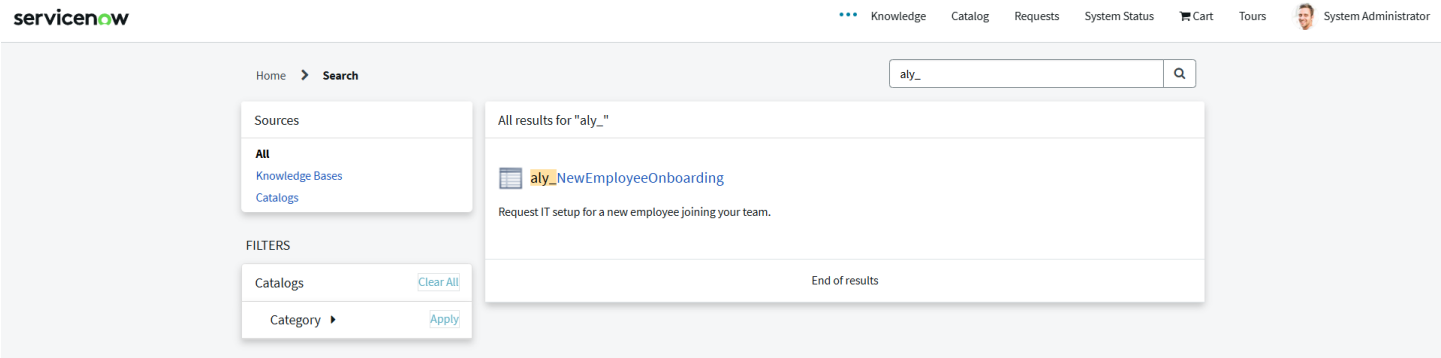

Part 6: Service Catalog / Catalog Items

Use-case: Lina's manager needs to submit a formal IT setup request through Service Portal. Build the catalog item that captures all the information the IT team needs.

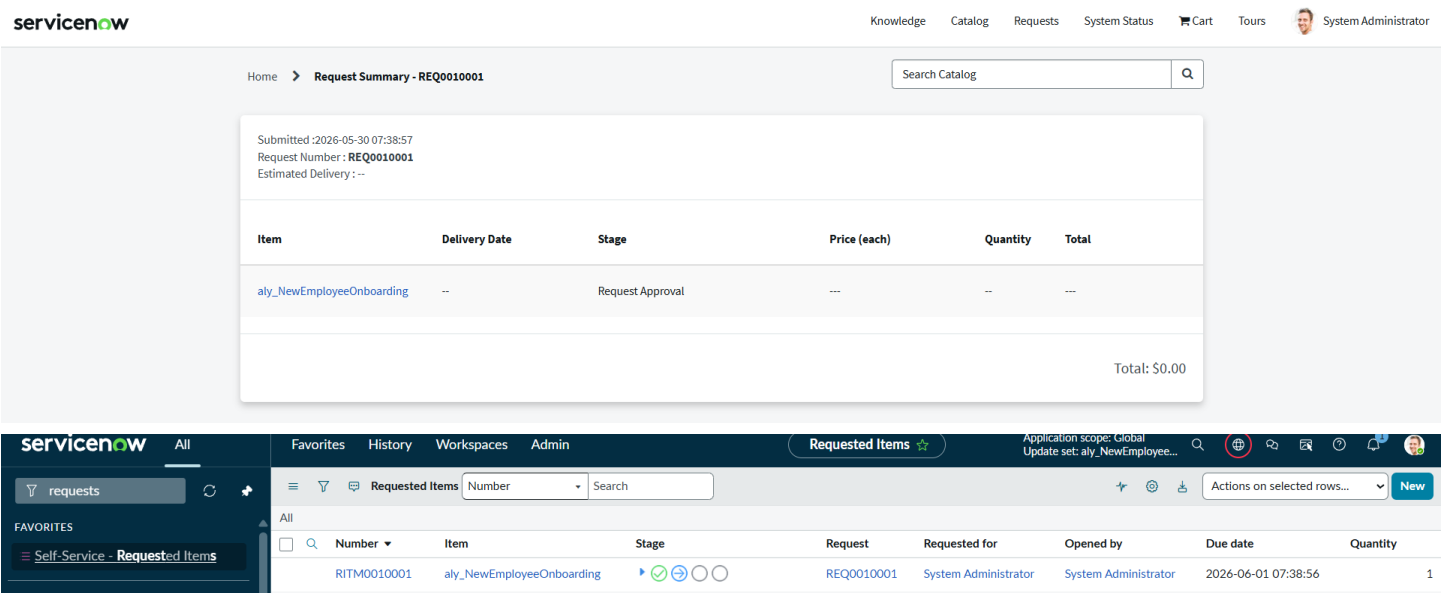

~This Part will contain Verification screenshots and update set (steps 1-5)

Step 6: Item visible in the Service Portal and test RITM created

Verified catalog appear in portal through search

Verified requested item has been recorded from portal and saved successfully

Update-set Link (For Faster access):

Part 6 Update set

Part 7: Flow Designer / Process Automation

Use-case: When Lina's manager submits the onboarding request, IT needs to be notified automatically, and a task must be created -without any manual intervention.

~This Part will contain Verification screenshots and update set (steps 1-5)

Step 6: Flow is Active. Test confirms Catalog Task + email in outbox (screenshots)

Verified Catalog task is auto created with data (Alyeldin Khairy, starting date is 4-july-2026)

The screenshot shows the ServiceNow Catalog Task form for SCTASK0010007. The form is titled "Catalog Task - SCTASK0010007" and includes fields for Number, Assigned to, Configuration item, Active (checked), Approval (Not Yet Requested), Priority (4 - Low), State (Open), Request item (RITM0010003), and Requested for (System Administrator). The Short description is "Set up IT for: Alyeldin Khairy". The left sidebar shows the "tasks" filter and the "ALL RESULTS" section with "App Engine", "Collaboration", "Collaboration Tasks", and "Request App Administration".

Verified Email appears in System Outbox successfully with the correct fields shown

The screenshot shows the ServiceNow Email form for "New Onboarding Request". The form is titled "Email - New Onboarding Request - Action Required" and includes fields for Employee Name (Alyeldin Khairy), Effective Start Date (2026-07-04), and a "Close" button. The left sidebar shows the "emails" filter and the "ALL RESULTS" section with "System Logs - Emails", "Emails", "Email Addresses", "Platform Analytics Administrat...", "Schedules", "Email Summaries", "System Notification", "Email", "Email Notification Dashboard", "Notification Email Scripts", "Email Access Restriction", "Process Automation", "Flow Administration", "Inbound Email Flows", "Email Client", "Email Client From Address", "Email Client Templates", and "Email Drafts".

Update-set Link (For Faster access):

Part 7 Update set

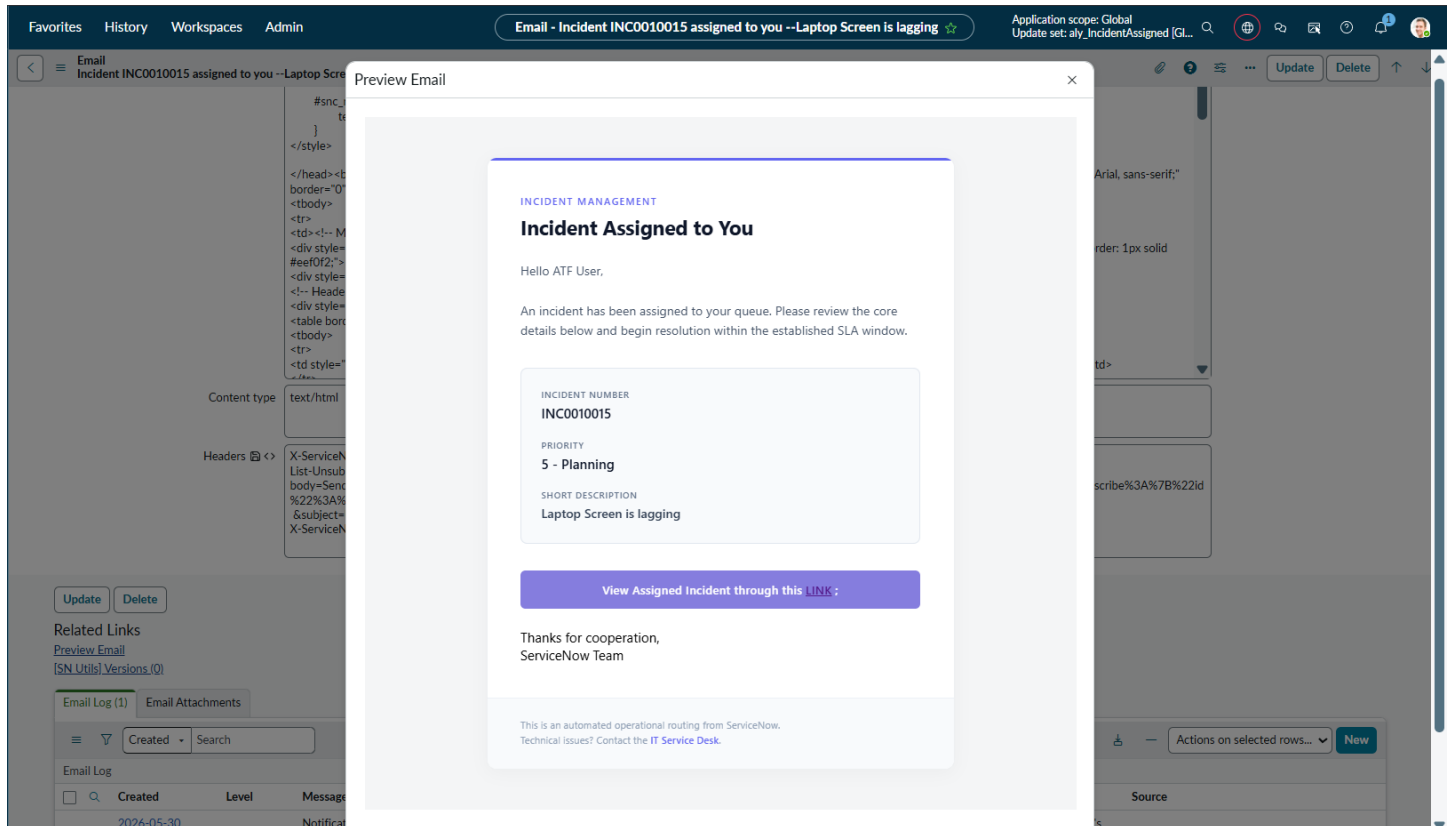

Part 8: Email Notifications

Use-case: When an Incident is assigned to an agent, they need to receive an email immediately, including the Incident number, description, priority, and a direct link.

~This Part will contain Verification screenshots and update set (steps 1-5)

Step 6 : Test confirms email in Outbox after assignment

Verified that emails are sent whenever assigned to field changes, in this test the field was changed to ATF user

Update-set Link (For Faster access):

Part 8 Update set

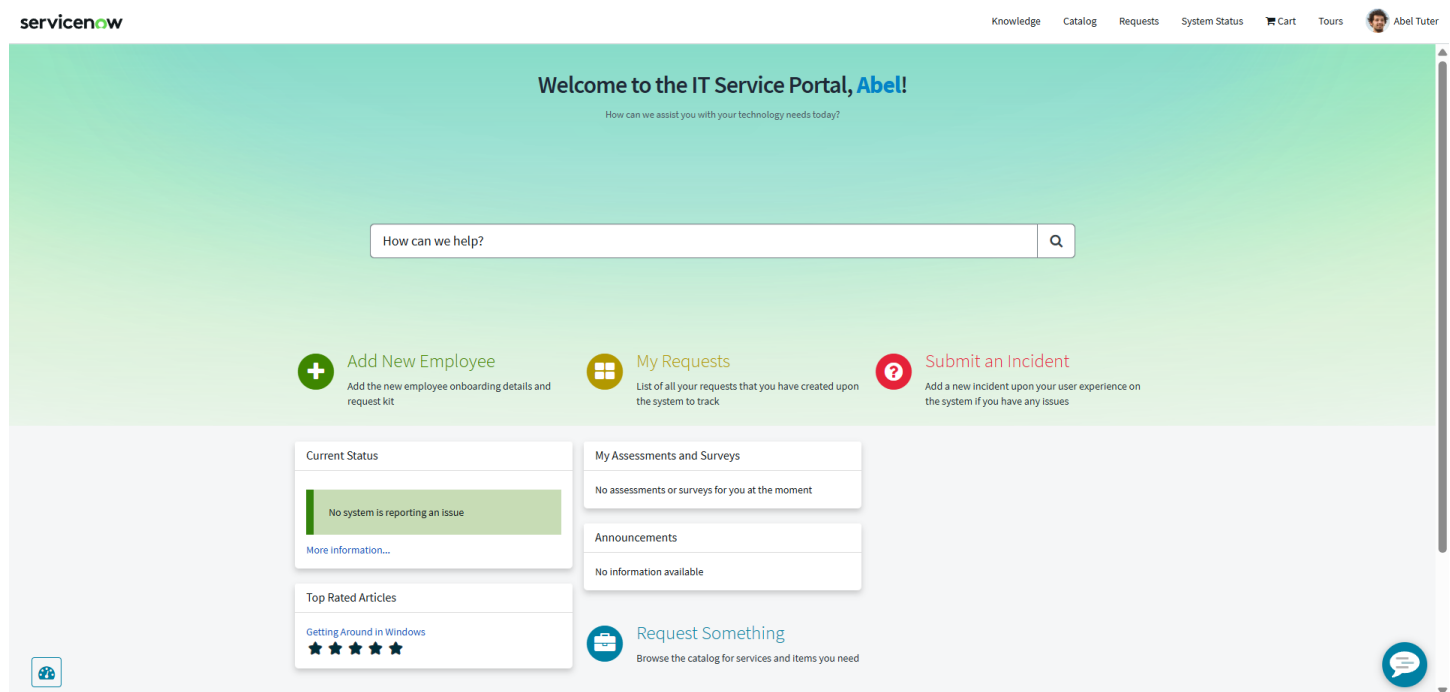

Part 9: Service Portal

Use-case: Before Lina's first day, configure the Service Portal so she and other users have a personalized welcome, easy access to the onboarding catalog item, and navigation shortcuts

~This Part will contain Verification screenshots and update set (steps 1-5)

Step 6: Screenshot as end user showing all 4 elements

To verify this task, impersonated to Abel tutor user to verify Abel name appears in the welcome widget and have all elements is available.

Update-set Link (For Faster access):

NOTE: to get no error retrieving this update set, make sure update set part 6 is retrieved earlier, as they depend on each other

Part 9 Update set

Part 10: ITSM -Incident Management

Use-case: On Lina's first day (1 June 2026), her laptop is delivered without a keyboard. She calls the service desk. Walk the Incident through its complete lifecycle.

~This Part will contain Verification screenshots

Step 1: Incident created with all 6 correct field values

The screenshot shows the ServiceNow Incident form for INC0010028. The form is titled "Incident - INC0010028" and has a status of "New". The fields are as follows:

- Number: INC0010028
- State: New
- * Caller: Lina Hassan
- Impact: 2 - Medium
- Service: (empty)
- Urgency: 2 - Medium
- Service offering: (empty)
- Priority: 3 - Moderate
- Configuration item: (empty)
- Assignment group: (empty)
- Assigned to: (empty)

The "Additional Fields" section is also visible, showing:

- Category: Hardware
- Subcategory: Equipment
- Business Service: (empty)
- Channel: -- None --
- Contact Type: -- None --
- * Short description: Laptop delivered without keyboard on first day
- Description: (empty)

The form has buttons for "Update", "Resolve", and "Delete".

Step 2, 3, 4: Work Note added (not a Comment) - visible in Activity Stream

Impersonated by David Loo to continue the Concept of ITSM Flow

The screenshot shows the ServiceNow Incident form for INC0010028, now in the "In Progress" state. The form is titled "Incident - INC0010028" and has a status of "In Progress". The fields are as follows:

- Number: INC0010028
- State: In Progress
- * Caller: Lina Hassan
- Impact: 2 - Medium
- Service: (empty)
- Urgency: 2 - Medium
- Service offering: (empty)
- Priority: 3 - Moderate
- Assignment group: Service Desk
- Assigned to: David Loo

The "Additional Fields" section is also visible, showing:

- Category: Hardware
- Subcategory: Equipment
- Business Service: (empty)
- Channel: -- None --
- Contact Type: -- None --
- * Short description: Laptop delivered without keyboard on first day
- Description: (empty)

The "Notes" tab is active, showing a list of work notes. The first note is:

- Work notes: (empty)
- Activities: 3
- David Loo: Investigating. Confirmed laptop was shipped without keyboard. Contacting supplier.
- System Administrator: Assigned to David Loo. Incident state In Progress was New.
- System Administrator: Impact 2 - Medium. Incident state New. Opened by System Administrator. Priority 3 - Moderate.

The form has buttons for "Update", "Resolve", and "Delete".

Step 5: Resolution code and notes filled before resolving

Verified before Submission Resolved by and resolved fields are empty

The screenshot shows the ServiceNow interface for Incident INC0010028. The 'Resolution Details' tab is active. The 'Resolution code' is set to 'Solution provided'. The 'Resolution notes' field contains the text 'Replacement keyboard delivered and confirmed working by Lina'. The 'Resolved by' field is empty. The 'State' is 'Resolved'. The 'Caller' is 'Lina Hassan'. The 'Service' is empty. The 'Service offering' is empty. The 'Configuration item' is empty. The 'Impact' is '2 - Medium'. The 'Urgency' is '2 - Medium'. The 'Priority' is '3 - Moderate'. The 'Assignment group' is 'Service Desk'. The 'Assigned to' is 'David Loo'.

Verified after Submission Resolved by and resolved fields are auto populated

The screenshot shows the ServiceNow interface for Incident INC0010028. The 'Resolution Details' tab is active. The 'Resolution code' is set to 'Solution provided'. The 'Resolved' field is auto-populated with the date '2026-05-31 09:17:22'. The 'Resolved by' field is auto-populated with 'David Loo'. The 'Resolution notes' field contains the text 'Replacement keyboard delivered and confirmed working by Lina'. The 'State' is 'Resolved'. The 'Caller' is 'Lina Hassan'. The 'Service' is empty. The 'Service offering' is empty. The 'Configuration item' is empty. The 'Impact' is '2 - Medium'. The 'Urgency' is '2 - Medium'. The 'Priority' is '3 - Moderate'. The 'Assignment group' is 'Service Desk'. The 'Assigned to' is 'David Loo'.

Step 6 and 7: State transitions in correct order + Resolved At auto-set

Verified that incident is closed logged in by system administrator and resolved by David Loo

The screenshot shows the ServiceNow interface for Incident INC0010028. The 'Resolution Details' tab is active. The 'State' is 'Closed'. The 'Resolution code' is set to 'Solution provided'. The 'Resolved' field is auto-populated with the date '2026-05-31 09:17:22'. The 'Resolved by' field is auto-populated with 'David Loo'. The 'Resolution notes' field contains the text 'Replacement keyboard delivered and confirmed working by Lina'. The 'Caller' is 'Lina Hassan'. The 'Service' is empty. The 'Service offering' is empty. The 'Configuration item' is empty. The 'Impact' is '2 - Medium'. The 'Urgency' is '2 - Medium'. The 'Priority' is '3 - Moderate'. The 'Assignment group' is 'Service Desk'. The 'Assigned to' is 'David Loo'.

Part 11: ITSM -Service Request Fulfillment

Use-case: Lina's manager has already submitted the Part 6 catalog request. Now act as the IT agent to fulfill it -progress the Catalog Task and close the RITM correctly.
~This Part will contain Verification screenshots

Step 1 and 2: Request submitted via Service Portal with correct variable values

Step 5, 6, 7: Work Note added during Implement state + Change closed Successful

Verified work notes during implement phase

The screenshot shows the ServiceNow interface for Change Request CHG0030001. The left sidebar contains navigation links for 'change', 'Favorites', and 'All Results'. The main content area is titled 'Change Request - CHG0030001' and includes tabs for Planning, Schedule, Conflicts, Notes, and Closure Information. The 'Notes' tab is active, displaying a 'Work notes list' with one entry: 'Firmware patch KB2026-06 deployed to all 12 new-hire laptops. All devices verified healthy' by System Administrator on 2026-05-31 10:12:12. The 'Activities' section shows a timeline of events, including 'Field changes' and 'Work notes'.

Verification that change is closed

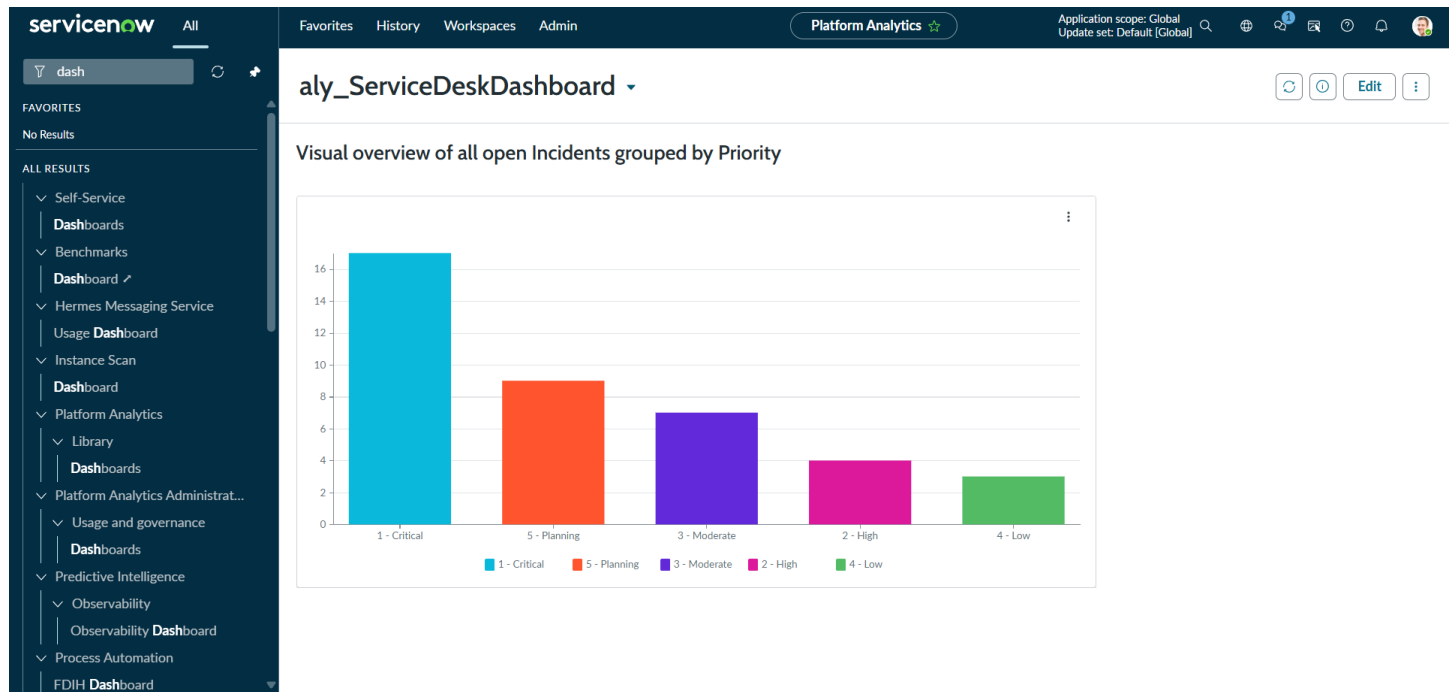

The screenshot shows the ServiceNow interface for Change Request CHG0030001 in the 'Closed' state. The left sidebar is the same as the previous screenshot. The main content area is titled 'Change Request - CHG0030001' and includes tabs for Planning, Schedule, Conflicts, Notes, and Closure Information. The 'Closure Information' tab is active, displaying the 'Close code' as 'Successful' and the 'Close notes' as 'Patch deployed successfully. No incidents post-deployment.' The 'Status' is 'Closed'.

Part 13: Reporting & Dashboards

Use-case: The service desk supervisor wants a visual overview of all open Incidents grouped by Priority to monitor Lina's team's workload. Build the report and add it to a personal dashboard.

~This Part will contain Verification screenshots and update set (steps 1-6)

Step 7: Dashboard created with report widget showing chart
